

If you receive guaranteed pension credit or hold a valid HC2 certificate you may be eligible for help with the cost of your spectacles. (We are now required to ask to see evidence of your entitlement)

The law states that when you order goods or services (including spectacles) from home, you have the Statutory right to cancel your order, in writing, within 7 days.

You will therefore be issued with a form notifying you of your rights and a cancellation form to use if you wish.

As such, we will NOT commence work on any order for new spectacles until after this 7 day cancellation period. This will inevitably delay receipt of your order.

However, you may request, in writing, that work commences before the end of the cancellation period, and we have a form you can complete, should you wish to do so.

EYE EXAMINATION IN YOUR OWN HOME

We provide NHS eye examinations, free of charge, in your own home or nursing home, to those who cannot access a community optical practice unaccompanied, as a result of mental or physical disability. It is, however, strongly recommended that the patient attends the practice if at all possible, where a more complete examination can be made as a greater range of equipment is available. We are easily accessible for wheelchairs.

When you book a home eye examination, we bring specialised portable equipment to deliver the best possible care in the comfort of your own home.

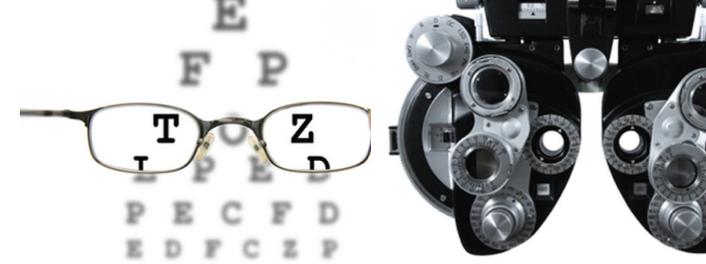

We also carry a bespoke range of frames for you to choose from, and appreciate it if you discuss your style preferences prior to our visit, so we can customise the frame range we bring for you to view.

We are committed to providing you with exceptional standards of professional eye care, and high quality affordable products, combined with friendly, personal and expert advice from our experienced team.

We pride ourselves on traditional values of good, caring service and attention to detail. We offer total eye care for the whole family in the heart of the local community.

I have personally lived and worked in the area for 24 years, and guarantee to provide you with a warm friendly welcome and top class service.

We offer;
NHS & Private Eye Examinations
Sunglasses
Extensive Range of Frames
Low Visual Aids
Individual & Personal Advice

We will advise on frame choice and lenses for your new spectacles. We will deliver and fit your new spectacles as soon as they are ready.

We request that the patient is accompanied at home by a carer or relative.

We offer a comprehensive, professional eye examination for NHS and Private Patients by fully qualified Optometrists.

Regular eye examinations are an essential part of your overall health care and can detect conditions such as diabetes and high blood pressure as well as visual fatigue. You will be assessed for eye conditions such as glaucoma, cataracts and macular degeneration.

If you are aged over 70 years it is recommended that you have your eyes examined every year. During your examination you will be given time to express any problems or concerns you may have with your eyes, and afterwards the results are fully discussed and all advice is carefully explained.
